Repair lines

- For both pool pallets and mixed pallets.
- Reduces the physical strain with clever tools.
- 25 to 40 pallets per person per hour.
- Connection to a Cekamon sorting line is possible.
- With the vertical supply of pallets you save a lot of space.
- Low investments with big results.
- With the band saw technic the pallets can be repaired in a short time.
- Flexible solutions.
- Can be expanded with an automatic Nail/Repair line.
- Modular to be constructed.
